## SALON INSTITUTE®

THANK YOU FOR CHOOSING OUR STUDENTS AT THE  
TENAJ SALON INSTITUTE FOR YOUR SERVICES!

While our clinic floor may resemble a salon, please remember that this is a classroom. Here are some other things to keep in mind during your visits so that you have the best experience with our students!

- Our students serve clients using a level system. Pricing is featured for Levels 1-4 according to advancement and expertise.
- All services require a shampoo and finished style. No exceptions can be made to this rule.
- Before services begin, you will receive a consultation from the student and educator. This will establish clear communication between you and your student and help us exceed the expectations you have for your style.
- Our educators may ask you questions about your requested service. Please be candid and open with your responses. Remember ... this is a school and constructive criticism helps us to grow!
- Only clients receiving services may be on the clinic floor. All other individuals must remain in the waiting area.
- We will do our best to provide you with the student that you request, however, please know that they may not always be available at your preferred time.
- We are unable to accept personal phone calls or deliver messages to students.

With your support, we are developing the beauty industry's next top stylists. Our professionally trained students provide you with high quality services under the supervision of our Tenaj Salon Institute staff. Our staff regularly participates in advanced workshops to bring the latest trends and techniques in beauty, education and professionalism to our students. We pride ourselves on delivering the best to our students as we set the industry standard.

We hope that you enjoy your visit.  
We are glad that you are here!
